

URGENT: FIELD SAFETY NOTICE

MENTOR® Smooth Round Saline DV Breast Implants

(Lot Numbers with Expiration Dates from January 01, 2025 to September 30, 2025)

– Voluntary Product Recall (Removal) –

October 11, 2021

Dear Valued Customer,

PLEASE DISTRIBUTE THIS INFORMATION TO ALL STAFF WITHIN YOUR FACILITY WHO USE MENTOR® Smooth Round Saline DV Breast Implants.

Mentor has initiated a voluntary Medical Device Recall (removal) regarding specific lots of MENTOR® Smooth Round Saline Diaphragm Valve (DV) Breast Implants which have expiration dates from January 01, 2025 to September 30, 2025. A small number of devices, due to an issue involving specific equipment used during manufacturing, may have a potentially weakened area on the base patch portion of the shell where the Mentor logo and identification numbers are located. This may result in premature deflation for which replacement surgery may be needed. As of October 11, 2021, a total of five (5) complaints have been reported related to leakage related to weakened area on the base patch portion of the shell, occurring intraoperatively or postoperatively.

Our records show that your facility received one or more of the subject product(s). Please carefully review this notice for the steps that you should take to respond to this medical device recall (removal).

Product Identification:

Product subject to the recall (removal) in your inventory can be identified by Expiration Date. All unused MENTOR Smooth Round Saline DV Breast Implants with an expiration date between January 01, 2025 and September 30, 2025 are subject to this recall (removal) and are required to be returned. The expiration date can be determined by using the Impacted Product List in **Attachment 1** and the Product Identification Tool in **Attachment 2**.

Product Description	Product Code	Unique Device Identifier/GTIN	Expiration Date Range
MENTOR Smooth Round Saline DV Breast Implant	See Attachment 1	See Attachment 1	January 01, 2025 - September 30, 2025

Potential Patient Impact:

Patients that have been implanted with product within the scope of this recall may be at increased risk for premature breast implant deflation. However, no prophylactic replacement surgery is recommended for these patients. It is not possible to determine if the implanted product within the scope of this recall is affected. Please continue to follow patients per your standard postoperative protocol, continue to monitor for implant deflation and, if deflation occurs, manage per your normal standard of care.

Any patients having the identified breast implants that subsequently experience deflation should be reported to the Mentor complaints department, and breast implants should be returned for analysis.

URGENT: FIELD SAFETY NOTICE

MENTOR® Smooth Round Saline DV Implants

(Lot Numbers with Expiration Dates from January 01, 2025 to September 30, 2025)

– Voluntary Product Recall (Removal) –

ACTION REQUIRED FOR CUSTOMERS:

1. Examine your inventory immediately to determine if you have product subject to this recall on hand and quarantine such product(s).
2. Remove the product subject to this recall and communicate the issue to relevant operating room or materials management personnel, or anyone else in your facility who needs to be informed.
3. If any product subject to this recall has been forwarded to another facility, contact that facility to arrange return. Please consider including a copy of this recall letter when communicating.
4. Complete the Business Reply Form (BRF) (Attachment 3) confirming receipt of this notice and return to [Insert Affiliate Information] within three (3) business days. Please return the BRF even if you do not have product subject to this recall.
5. Follow instructions in the letter and immediately return any inventory of MENTOR Smooth Round Saline DV Breast Implants with expiration dates ranging from January 01, 2025 to September 30, 2025 subject to this recall to [Insert Affiliate Information].
6. Keep this notice visibly posted for awareness until all product subject to this recall has been returned to [Insert Affiliate Information]. While processing your returns, please maintain a copy of this notice with the product subject to this recall and keep a copy for your records.
7. Customers are required to return unused impacted MENTOR Smooth Round Saline DV Breast Implants with expiration dates ranging from January 01, 2025 to September 30, 2025 subject to this recall that are in their inventory immediately. To receive credit reimbursement, customers must return product subject to this recall. Any non-affected product and any product returned after the date specified will not receive replacement.

If you have additional questions regarding this medical device recall (removal), please contact [INSERT AFFILIATE NAME] at [INSERT PHONE NUMBER].

As with any medical device, adverse reactions or quality problems experienced with the use of this product should be reported to your Sales Representative or your National Health Authority. If you have any further questions related to this notice or if you need any additional communications, please contact your local Sales Representative.

Sincerely,

...

Quality Head
