Geachte klant,

Details van de betreffende hulpmiddelen

Teleflex Medical Europe Limited heeft een vrijwillige corrigerende veiligheidsactie ('FSCA') opgezet voor de hierboven vermelde producten; raadpleeg Bijlage 2 voor informatie over het unieke hulpmiddel-id ('UDI') en partijnummer. Deze terugroepactie is een uitbreiding van een recente terugroepactie (Teleflex-referentie EIF-000513) en omvat aanvullende productcodes en partijen op basis van de uitkomst van verder onderzoek.

Als u geen exemplaar hebt ontvangen van de veiligheidswaarschuwing voor EIF-000513, heeft Teleflex vastgesteld dat u alleen producten hebt ontvangen waarop de uitbreiding, EIF-000513-01, van toepassing is. Ongeacht of u eerder hebt gereageerd op de eerste melding (EIF-000513), of als u voor de eerste keer een melding ontvangt, vraagt Teleflex u om de brief te lezen en de acties die op pagina 2 worden genoemd, uit te voeren.

Beschrijving van het probleem en onmiddellijke acties die vereist zijn

Teleflex start deze vrijwillige FSCA voor de bovengenoemde producten als gevolg van meldingen van het splijten of losraken van het hulpmiddel tijdens gebruik. De hulpmiddelen zijn bedoeld voor aansluiting op beademingsapparatuur op intensive care-afdelingen en in operatiekamers om de apparatuur te beschermen tegen mogelijke verontreinigingen in de lucht. Als het filter tijdens het gebruik scheurt of losraakt, kan de werking en efficiëntie van het hulpmiddel worden aangetast, wat mogelijk kan leiden tot lekkage en onvoldoende luchttoevoer naar de patiënt met mogelijke desaturatie.

Vanaf oktober 2022 zijn in totaal 38 klachten ontvangen over het splijten of losraken van het filter bij de producten waarop deze FSCA betrekking heeft. Van deze 38 klachten is bij 4 klachten letsel gemeld, waaronder desaturatie bij de patiënt. Er zijn op dit moment geen gevallen van overlijden of langetermijnletsel bij patiënten gemeld.
